Electronics Visionaries Meet[®]*

2012 Edition – 13 Jan 2012

The Specialized Children's Home of Kharberd (SCHK) was established in the village Haghtanak in 1950. In 1988 it was moved to village Nor Kharberd in Ararat region and is the only institute for 6-18 years old children with severe physical and mental disabilities in Armenia. There are currently 271 residents comprising:

- 7-18 years old – 189
- up to 18 – 82
- in wheelchairs – 105
- independent or partly dependant – 200
- totally dependant – 71

Residents live in groups according their condition and age with around 15 to 21 children/adults in each group, each under the permanent supervision of a caregiver, a special educator and nurse.

Christmas 2011 Collection

Synopsys Armenia Employees, including a contribution from Future Horizons, together collected more than 30kg candies, 227 toys and games, 24 sets of stationery, 8 books, 16 CDs, 282 pieces of cloth, 15 pair of shoes, and 13 items of cosmetics.

Helping children and young people with physical hardships overcome their health and social issues ... There are no words to express what a huge difference this kindness and generosity made!!

After handling the gifts guests were invited to the concert hall where children performed a bewitching Christmas show with songs, dances and jokes.

The Kharberd Specialized Orphanage will be the beneficiary of Future Horizons' IEF2012 Charity Raffle.

**5th Decade
Of Semiconductor
Experience**

**Our Experience
Starts With The First
Commercial IC**

Established in April 1989, Future Horizons provides market research and business support services for use in opportunity analysis, business planning and new market development. Its industry information seminars and forums are widely considered to be the best of their kind. Emphasis is placed on the world-wide semiconductor and electronics industry and associated markets. Emphasis is placed on the worldwide microelectronics and electronics industry, and European market environment.

Malcolm Penn is the founder and CEO of Future Horizons, with over 45 years experience in the electronics and semiconductor industry. He has worked extensively throughout Europe as well as in the United States, the former USSR, Japan and Korea, and was an early pioneer of pan-European research and product development collaboration in the 1970s during his tenure with ITT Europe. His industrial experience has involved him with all aspects of the management, manufacturing, marketing and use of electronic components, particularly semiconductor devices.

Future Horizons offers a high-quality, cost-effective, flexible alternative to expensive subscription-style, market research. Our experience commenced with the industry in 1982, from the first commercial IC to SOC integration. For all of your semiconductor business development needs ...
